Álvaro Millán Estevez

Full-Stack Web Developer

Portfolio: alvaromillanestevez.github.io

Email: alvaromye@gmail.com | Phone: +34 610 017 065 | Location: Málaga, Spain

Professional Summary

Full-Stack Web Developer with strong skills in frontend and backend development, including HTML, CSS, JavaScript, TypeScript, PHP, Laravel, Vue.js, React, and MySQL. Experience building responsive, scalable web applications and integrating REST APIs. Motivated to contribute technical expertise, problem-solving abilities, and international experience to dynamic and innovative development teams.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, Vue.js, React, Bootstrap, Tailwind CSS
Backend: PHP, Laravel, Node.js, REST APIs, JWT Authentication
Databases: MySQL, MariaDB
Tools: Git, GitHub, Composer, NPM, Vite
Other: Responsive Design, MVC Architecture, API Integration (Ticketmaster API, ChatGPT API, Claude API), DevOps (VPS, Debian, Docker Compose)

Selected Projects

VueShop Admin
Admin dashboard built with Vue 3 + TypeScript, integrated with Laravel API (JWT-protected) for managing products, orders, and users. GitHub: https://github.com/AlvaroMillanEstevez/VueShop-Admin (Video demo available in repository modal).

Event Review & Booking App
Laravel + React application integrating Ticketmaster API to list and manage event bookings.

Association Respira Internal Management System
PHP + MySQL application for tracking social interventions, ensuring sensitive data security and access control.
