Spanish: Native

English: Advanced reading/writing, intermediate speaking

Indonesian: Beginner, currently learning

Álvaro Millán Estevez

Full-Stack Web Developer | Laravel · Vue · React · AI Integrations

Full-Stack Web Developer focused on building practical web applications, admin dashboards and API-driven platforms using Laravel, Vue.js, React, PHP and MySQL. Experienced in responsive interfaces, REST API integrations, JWT authentication, CRUD systems and Docker-based deployments on VPS environments. Interested in remote roles, freelance projects and AI-powered business automation solutions.

Remote-ready

Freelance experience

API integrations

Docker deployments

SELECTED PROJECTS

VueShop Admin - Full-Stack Ecommerce Dashboard

Tech: [Vue 3](#), [TypeScript](#), [Laravel](#), [MySQL](#), [JWT](#), [REST API](#)

- Built a full-stack admin dashboard for managing products, orders and users.
- Integrated a Laravel REST API with a Vue 3 + TypeScript frontend.
- Implemented protected routes and JWT-based authentication.
- Designed responsive management screens with reusable frontend components.
- GitHub: github.com/AlvaroMillanEstevez/VueShop-Admin

TaskManager App - Task Management Platform

Tech: [Vue 3](#), [TypeScript](#), [Laravel](#), [MySQL](#), [Tailwind CSS](#), [Docker](#)

- Developed a task management application with authentication, user roles and CRUD operations.
- Built a Laravel API consumed by a Vue 3 frontend.
- Designed a responsive interface with Tailwind CSS.
- Deployed the application on a Debian VPS using Docker Compose.

Event Review & Booking App - Events Platform

Tech: [Laravel](#), [React](#), [MySQL](#), [Ticketmaster API](#)

- Built an event discovery and booking application using Laravel and React.
- Integrated the Ticketmaster API to retrieve and display event data.
- Implemented event listings, booking flow and review features.
- Designed database structures for users, bookings and reviews.

FREELANCE EXPERIENCE

Freelance Web Developer - Asociación Respira

Tech: PHP, MySQL, HTML, CSS, Authentication

- Developed an internal management system for tracking social intervention records.
- Implemented authentication and access control for sensitive user information.
- Created database-driven screens to register, view and manage intervention data.
- Delivered a practical tool adapted to the workflow of a non-profit organization.

SERVICES & AREAS OF INTEREST

- Full-stack web applications and internal tools
- Vue / React frontend development
- AI chatbot and automation integrations
- Bug fixing, API integrations and deployment support
- Laravel API development and PHP/MySQL systems
- Admin dashboards, CRUD systems and authentication flows
- Ecommerce tools, product pages and landing pages

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript ES6+, TypeScript, Vue.js, React, Bootstrap, Tailwind CSS
Backend:	PHP, Laravel, Node.js, REST APIs, JWT Authentication, MVC Architecture
Databases:	MySQL, MariaDB, relational database design
Tools:	Git, GitHub, Composer, NPM, Vite, Docker Compose, Debian VPS
APIs & Automation:	Ticketmaster API, ChatGPT API, Claude API, third-party integrations

EDUCATION

Higher Degree in Web Application Development (2023-2025)

I.E.S. Fuengirola Nº1 - Focus on programming and web development.

Technology Bacalaureate (2007-2009)

I.E.S. Las Lagunas - Specialization in technological studies.

ADDITIONAL EXPERIENCE

Self-Employed Contractor - Maderas y Estructuras del Sur

Founded and managed a construction company, handling client relationships, planning and project delivery.

Amazon Delivery Driver

Managed delivery routes efficiently while maintaining accuracy, reliability and time management.

Hospitality Roles in Spain & Denmark

Customer service experience in international environments, improving communication and adaptability.
